A wonderful sighting

joannadailey

January 29

On 27 January our friend Jean-Marie Dupart was surveying ospreys in the [Saloum Delta National Park](#). It is a wonderful area for birds, with many miles of unspoilt waterways. Jean-Marie conducts his surveys every month. Despite the regular visits, he had a new record on Saturday - Blue 215/Dinmont, who hatched at Nest 1A in 2020.

Blue 215
(c) Jean-Marie Dupart

This is the first report we have received of him in his wintering grounds, although he was seen in September 2020 at what may now be a regular stopover in [Northern Spain](#).

215/Dinmont intruded at Nest 7 as a two year old, but if he was in Kielder Forest in 2023 he was camera shy! Let's hope we see him this season.

Many thanks to Jean-Marie for this important sighting.
